

On the Subject of Hearthur

All those other modules are so heartless.

I have a giant heart on my module plate and my face in the corner. You probably don't know me yet. Let me introduce myself. I'm Hearthur.

Once I activate, my heart will start beating. This beating is irregularly because I have a medical condition. When this happens you should not select me or I might get a heart attack and strike you. I hope you understand.

Good luck on your bomb anyway!

~ Hearthur
